

CABLE APRIL 7, 2020 ELECTION PROCESS

In order to protect voters and poll workers as much as possible, the April 7, 2020 election in Cable will be held with CURBSIDE VOTING ONLY. Voting will be set up in the entryway of the Community Centre. The process is as follows:

- 1. Drive up to the door of the Community Centre.**
- 2. A poll worker will come out and check your ID.**
- 3. That same poll worker will retrieve the page of the poll book with your name to bring to you. You will be given a pen to sign on the poll book sheet by your name.**
- 4. A second poll worker will bring you a ballot. You will vote with the same pen and then keep the pen. Each voter will receive his/her own pen.**
- 5. After you vote, a protective sheet of paper will be placed on top of your ballot for privacy of your vote and for protection of the poll worker. The poll worker will then step inside to put your ballot in the scanning machine. You are done!**

This process will ensure that voters are able to stay in their own space in their car and still be able to vote. The process is also the least amount of exposure for poll workers. Thank you for your cooperation! We can do this!

Deanne Allen, Clerk
